

Quiz National Election 2024 Outcome

With one week to go until South Africa heads to the polls, I am certain that by now you have made up your mind about which political party will get your vote. I am sure that those of you who are interested in who ultimately controls the government of South Africa, our destinies within business and of course aviation have listened to some of the fictional party manifesto utterances coming from politicians. Manifestos are meant to be written declarations of the achievable intentions, true motives and realistic promises of a political party. However, as we all know, most are just a laundry list of emptiness wrapped into an alphabet bubble.

We all also need to remember that this year will vote on three ballot papers, which will be rather confusing for the vast majority of the South African population. Anyway what a waste of paper, when with the tools available to everyone today, the entire process could be managed digitally in real time.

This is just some fun to keep our minds busy during this election time and certainly is no reflection on who I will be voting for or what my thoughts of the outcome will be. However, I have asked several of my friends to participate by completing their predictions as they expect to see after all the votes have been counted. Why not print this document and place it somewhere safely so that you can compare your prediction with the actual outcome in just over one week's time.

Year 2019 results were as follows:

ANC	57.50%
DA	20.77%
EFF	10.79%
IFP	3.38%
FF plus	2.38%
ACDP	0.84%
UDM	0.45%
Others	3.89%
TOTAL	100%

What do you predict this year 2024

What will be most interesting is to see how close you come to the actual score – but no cheating!

Regards,

Athol Franz
